SUMMARY

Extensive experience in building efficient and effective systems in both frontend and backend technologies. My work involves collaborating with diverse teams to deliver high quality solutions.

EXPERIENCE

Newton | Hyderabad, India | Remote - *FE Developer*

November 2021 - November 2024

Worked on institutional ERP, building modules such as Admissions, Inventory Management, Grading, Fee Payments. Collaborating daily with Product, Backend and Design teams to clear out the requirements and build feasible and effective solutions.

Enspara | Cape Town, South Africa | Remote - *FE Developer*

April 2020 - August 2021

Maintained a Progressive Web App which was designed to work offline on tablets for gathering data and a supplementary desktop app. Implemented enhancements that improved user experience and performance of the applications.
