Work Experience

Frontend Developer

Remote

Newton Classroom

Hyderabad, India

Nov 2021 - Nov 2024

- Built comprehensive school management features including timetable, digital diary, noticeboard, communications (Email, SMS), admissions, finance, student records, grading, HR payroll, transportation, and reporting systems.
- Implemented robust security through configuration-based, role-based access control (RBAC), and permissions-based features.

Frontend Developer

Remote

Enspara

Cape Town, South Africa

Apr 2020 - Aug 2021

- Worked on a progressive web app with heavy offline usage. worked together with the team to overcome challenges with IndexedDB and browsers reducing monthly crash reports by 60%
- Developed UI component library with a design system from scratch using Figma for mockups, styled-component, and TailwindCSS to style and storybook to test/develop rapidly
- Successfully refactored and migrated old codebase to modern react with hooks
